Thanks to Astrolabe Inc (www.alabe.com) for the use of Solar Fire software

The Association's objectives are the advancement of education of the public by the critical study of astrology in all its branches: to encourage and draw together all students of astrology, to enlarge and integrate the knowledge of astrology, to co-ordinate and publish results as desirable, and to generally work for its more widespread understanding as an art and science. Astrology is the practice of relating heavenly bodies to lives and events on earth, and the traditions that have thus been generated.
